DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 and 5-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Arnold.

Note pads 22 in Arnold, figures 1 and 1A. These pads are fixed in either a use or non-use mode. Applicant's amendments do not preclude adjustability, i. e., the claims do not require the pads be permanently, non-movably mounted relative to the bucket.

Regarding the tangent arrangements set forth in the claims, pads 22 are above the bucket line. Note figure 2A.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2, 4 and 9-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Arnold in view of McReynolds.

It would have been obvious to bolt the wear pads in Arnold to the pad support in view of the teaching in McReynolds (elements 59).

Regarding claims 4, 9, 11 and 12, note 41 in figure 2A of Arnold forms an acute angle with 40.

Claims 1-3, 5-8 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Confoey in view of Larkin, et al, as applied in the first Office action.

Conclusion

Applicant's remarks have been carefully considered but are not deemed persuasive. The claims do not require the pads be permanently, non-movably mounted relative to the bucket.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
